NO DANGER OF WAR.

The Russian-British Dispute Over North Sea Affairs Settled.

London, Oct. 29.—All danger of war between Russia and Great Britain has been averted and the settlement of the only points in dispute regarding the attack by the Russian second Pacific squadron on British warships October 21 has been referred to international commission under the Hague convention.

Premier Balfour, speaking at a meeting of the National Union Conservative clubs at Southampton Friday night, broke that alliance which had been so long preserved and had brought the people of the United Kingdom to a condition of almost desperate irritation and given rise to misconceptions which Mr. Balfour Friday night himself exposed. "The Russian ambassador," said Mr. Balfour, "has authorized a statement to the following effect: The Russian government, on hearing of the North Sea incident, at once expressed its profound regret and also promised most liberal compensation. The government has ordered the detention at Vigo of that part of the fleet which was concerned in the incident, in order that the naval authorities might ascertain what officers and any material witnesses would not proceed on the voyage to the far east; that inquiry would be instituted into the facts by an international commission as provided by the Hague convention. That, Mr. Balfour interpreted, had nothing to do with arbitration; it was the constitution of an international commission in order to find out the facts and any person found guilty would be tried and punished adequately. The Russian government undertook that precautions would be taken to guard against recurrence of such incidents. Special instructions on this subject would be issued."

St. Petersburg, Oct. 28.—The naval general staff publishes the following dispatch from Vice Adm. Rozhdestvensky:

"The North Sea incident was caused by two torpedo boats advancing to attack without lights under cover of darkness, against the vessel leading the detachment. When the detachment turned on its searchlights and opened fire, the presence of several small steamboats rescuing steam fishing boats was discovered. The detachment endeavored to spare these and ceased firing as soon as the torpedo boats were out of sight."

Shortly afterward the chimes in the cathedral carried the sad news to the thousands that have prayed that the archbishop's life might be spared. The last words uttered by the eminent churchman was a prayer, which he repeated in tones almost inaudible to the little group kneeling at the bedside.

HE COULD HARDLY GET UP.

H. Duffy, of Ashley, Ill., writes: "It is to certify that I have taken a bottle of Foley's Kidney Cure and it has helped me more than any other medicine. I suffer from aching in the back and in the legs, and I find it hard to get up when once down."

SOUTH OF MUKDEN.

Everything Indicates That Both Armies Are Ready For a Resumption of Hostilities.

THE JAPS LARGELY REINFORCED.

Second Battle on the Shakhe River Will Prove Bigger and More Serious Than the First.

On Night of October 30 Japanese Attacked the Russian Entrenchments East of Sincingpu, But Were Repulsed.

Chefoo, Oct. 31.—The third general attack on Port Arthur began October 21, according to unimpeachable authority, and on October 26 Japanese shells set fire to the only smokeless powder magazine in Port Arthur. Portions of the town caught fire, the conflagration continuing the whole day. On October 26 the Japanese captured the Russian trenches on the slope of Kiplung mountain, also a fortified position protecting that fortress. The Japanese consider the progress of the siege to be highly satisfactory.

St. Petersburg, Nov. 1.—Everything indicates that both the Japanese and Russian armies south of Mukden are ready for a resumption of hostilities. If indeed fighting has not already begun, Gen. Kurapatkin reports that the Japanese have received reinforcements from the south and Feng Wang Chang. Their concentration seems to have been accomplished and they are ready to resume the offensive both east and west of the railroad. There is official estimate of the strength of the Japanese reinforcements, but correspondents place it at from 40,000 to 60,000. It is believed that the Japanese force has been very largely augmented both from Port Arthur, where an engineering siege has been begun, and from Japan, from whence it is said every available man is being sent.

It seems to be assured that the Japanese will be able to meet Gen. Kurapatkin on almost if not quite an equal numerical footing. The new fact that they are again threatening a double flanking movement indicates field of maneuver confidence in the field of maneuver of the force at his disposal. It is believed here that the second battle on the Shakhe river will prove to be much bigger and more serious than the first, as the first was more serious than the battle of Liaoyang. Gen. Kurapatkin is confronted by an exceedingly difficult problem. He is pitted against a Japanese force stronger even despite its recent losses than that first opposing his south advance. If Kurapatkin now succeeds in checking or even breaking the Japanese formation it will open large possibilities for the brief remainder of the present year's campaign. On the other hand, a Russian reverse would render the position exceedingly critical.

Dispatches indicate the resumption of fighting on both extremes of the Russian front. The night of October 30 the Japanese attacked the Russian entrenchments east of Sincingpu, but were repulsed though the bombardment continued throughout the night. A Japanese advance has also begun against the Russian positions at Tungshan, a mile and a half north of Sincingpu, where they encountered a heavy Russian fire.

Vice Admiral, Oct. 31.—Inquiry here has been made of the official confirmation of the report published in the United States that Vice Adm. Rozhdestvensky has requested Emperor Nicholas to relieve him of his command.

FROM SOUTH AFRICA.

NEW WAY OF USING CHAMBERLAIN'S COUGH REMEDY.

Mr. Arthur Chapman writing from Durban, South Africa says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for young and old, I pen you the following: A neighbor of mine had a child just two months old. It had a very bad cough and the parents did not know what to do with it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some under the dummy teat the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby." This remedy is for sale by A. M. Hughes.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. It is the child's worst enemy. It is the cause of the difficulty to kidney trouble, and the first step should be taken towards the treatment of these important organs. Kidney trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of this remedy is realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free. Also pamphlet—Home of Urinary Tract—sent all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

A SUCCESSFUL TRIP

Knabenshue Made a Second Trial of the Airship California Arrow at St. Louis.

CIRCLED IN EVERY DIRECTION.

After Making Headling Against Moderate Wind He Landed at the Place From Which He Started.

The Daring Aeronaut Remained in the Air 2,000 Feet Above the Earth For 26 Minutes—The Machine Is Dirigible.

St. Louis, Nov. 1.—After circling in every direction at a height of 2,000 feet above the cascades, in sight of thousands of cheering, enthusiastic spectators on the World's fair grounds, Roy Knabenshue, of Toledo, O., in command of the Halvick airship, Monday returned to the place from which he had started over the same course that he had come, covering the three miles and a half of the round trip under his own power and demonstrating the claims of the inventor, Capt. Thos. S. Baldwin, of San Francisco, that the "California Arrow" is not only dirigible, but that it can make headway against a moderate breeze.

Knabenshue started from the aeronautica course at 3:37 p. m. and returned after his remarkable flight at 4:05 p. m. On the return trip the airship sailed slowly over the exact spot where it had risen, 25 minutes previously, and alighted about 100 feet further west where it settled gracefully to the ground.

The descent of the Arrow was the signal for a demonstration the equal of which has not been seen since the wheels of the World's fair started last April in response to the pressure on a key by President Roosevelt. Dozens of eager hands were upstretched to grasp the frame of the airship and the flying machine, with its daring navigator, were carried around the course upon the shoulders of shouting men.

Hats were thrown in the air and when Knabenshue called for cheers for his home town, they were given with a will and another round followed for Knabenshue and Baldwin.

THE LIGHTWEIGHTS.

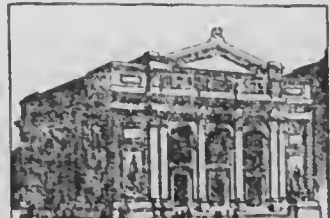

Britt Lost the Championship by Foul-ing Gans in Fifth Round.

San Francisco, Nov. 1.—Jimmy Britt, of California, lost the lightweight championship of the world Monday night when he fouled Joe Gans. He had sent Gans to his knees in the fifth round and then losing his head gave him a vicious punch and Retreace Graey promptly awarded the decision to Gans on a foul. The same thing had happened in the fourth round. Gans had dropped to his knees to escape a blow that did not land. Britt struck at him but Gans very promptly recognized the foul fighting. It looked almost from the start as if it were Britt's fight. He actually out-boxed Gans and landed blow after blow. In the fourth round it was apparent that Gans was scared and baring his head he was hit to a certainty.

After the fight, when Britt had recovered his temper, he apologized to Gans and said: "What could I do when a man fell every time when it was unnecessary? I am sorry I hit him while on his knees but I could not help it."

Lock and Dam Matters.

Assistant United States Engineer B. F. Thomas was in Louisa Monday, taking a day or so from his leave to adjust matters here before his final departure. He resumed his leave of absence November first. It will expire on the 26th of this month when he will be furnished without pay for a period of three years. During this time Mr. Thomas may, if he so desires, re-enter the Engineer service of the United States, a service in which he has had a long and brilliant career. During Mr. Thomas' absence and probably longer all matters pertaining to the improvement of the Big Sandy, including the Tug and Levisa forks, are directly in charge of Mr. Homer A. Scholze, who became an Assistant Engineer last June, after a rigid examination. Mr. Scholze has until quite recently been in charge of the work at Kavanagh, but since the first of the month he has made Louisa headquarters and is busy making plans for the building of the lock and dam at Chapman, on Levisa fork. The dam at Catlettsburg is entirely completed, with six feet of water in the pool, an amount which can be increased if necessary by opening the lock at Louisa. The last bucket full of concrete was used on the dam at Kavanagh last Saturday. As soon as the needles are finished this dam will also be ready for use, thus successfully completing the work of slack-watering the Sandy from the mouth of the river to the forks. It is the consummation of a hope born years ago and which few thought would ever be realized. It plainly shows that all things come to those who wait—and hustle.

Mr. Scholze came to the work about two years ago as a draftsman, and he is certainly to be congratulated on his promotion. It is not known who will be appointed by Col. Huffer to take permanent charge of this river, but until such appointment is made Mr. Scholze will be chief.

November, last and least pleasant month of the fall, the American autumn, than which there is not a more delightful season on earth, came in with genial sunshine, crisp bracing morning air and balmy afternoons. Each night, however, has an added touch of frost, and although the hazy, lazy Indian summer is just beginning, perhaps yet to come, all signs and feelings more than suggest the coming of the winter. But why need we fret or care? "The fruit is on the pumpkin," mellowing it for the pie, the "simmon has lost its pucker, and the rabbit's fit to die.

CIRCUIT COURT.

A Light Sentence With the Only Felony Conviction.

Last Saturday afternoon the grand jury made a final report and was discharged. 166 indictments were found. The jury failed to indict Coon Hampton, charged with the murder of Lee Boyd, but he was indicted for illegally selling liquor so many times that if convicted for it he will spend a good while in confinement. The only conviction for felony was that of Victor Caperton, charged with shooting and wounding with intent to kill. For one offense he was given one year in the penitentiary, and the other case for a similar offense was continued. Sentence was passed upon him Tuesday. The trial of civil cases began Tuesday and this will probably consume the entire remainder of the term.

Caperton was convicted of shooting itan Boggs in the street and in Louisa last spring. Sheriff Caudill left with him Wednesday for Frankfort.

Last Sunday the new Southern Methodist church near the forks of Little Blaine was dedicated with the usual form and ceremony. A large crowd, variously estimated at from four to five hundred people, was present. The church is well located on the right fork of the creek, near "Table Rock," and is a very pretty, well constructed edifice. Magnificently enough, for a church, it is entirely out of debt, the fifty dollars raised to pay off all claims against it. Rev. S. A. Donahoe, Presiding Elder of this District, preached the dedication sermon.

Tuesday's Ashland Independent says: "A telegram was received this morning from Will Wray, of Belmont, Pa.—who intended bringing the bodies of his deceased wife and little boy today, to be placed in a vault in the Catlettsburg cemetery, preparatory to taking up his residence here with his sister-in-law, Mrs. Z. C. Vinson—stating that his brother, Dave Wray, had died suddenly, and that it would be impossible for him to come for several days." Mrs. Wray was a sister of Dr. and Sam Broome, of this place, and lived in Cassville a number of years.

The spirit of mischief was certainly abroad Monday night. It was Halloween, night dedicated to fun, phantoms and frolic, and the ragged look of sundry gates, fences, signs, and other outdoor belongings plainly showed that the boys—and girls, we suspect, were out. We have heard of nothing, however, that betrayed the presence of mischief as well as fun and if the crowd enjoyed carrying heavy boards and stones several squares the public will not complain severely, but when advantage is taken of the occasion to do injury to property, the offense is inexcusable and deserves punishment.

Since its establishment in Lawrence county last April the business of the Rural Free Delivery has increased wonderfully. On the day it began the carrier delivered 67 pieces of mail and collected 25. On the last day of October he delivered 265 pieces and collected 47. This is a big increase and shows how the people who live along the route are taking advantage of the system. (Beginning next Tuesday the mail wagon will leave Louisa at 9 a. m. and return at four in the afternoon.

Tuesday of last week death entered the home of M. F. Hatten at Buchanan and laid his life hands on Mrs. M. T. Hatten, mother of Mrs. Hatten. She was stricken with pneumonia only about 48 hours before her death, and her condition was not thought to be so serious.

To Develop Coal.

A great many years ago William H. Reed, of Pittsburg, became the owner of the mineral right of a vast tract of land in West Virginia, beginning about the mouth of Tabor creek and extending several miles up Tug river. At his death the United Presbyterian Church of Pittsburg, became the owner, probably through devise, and up to this time the property has remained practically undeveloped. It could not always remain so, however, and it seems that the great mineral wealth so long hidden and non-producing will be opened and put upon the market. One of the occurrences is the appearance of a mining engineer, Mr. B. J. Clay, of Pittsburg, who arrived in Louisa Monday and we are informed that it is his purpose to examine and test in a practical manner this presumably very valuable boundary.

River Improvement.

Louisa, Ky., Nov. 2, 1904. To the friends of the Big Sandy Improvement Movement:

There will be a meeting of this Association held at Huntington, W. Va., November 18th, the closing day of the meeting of the Ohio Valley Improvement Association. Our friends in Huntington have always so ably and willingly seconded our efforts, not only by their presence and encouragement, but also by contributing materially to help defray the expenses of our work, that we deem it only fair that we meet there and assist by our presence in making the meeting of the Ohio Valley Improvement Association a success, numerically, at least. I trust that Big Sandy will be well represented at this gathering by a delegation and a good sized one at that—from each county in the Valley. Yours truly, JAY H. NORTHUP, Pres.

BUSSEYVILLE.

Halloween was duly celebrated here last Monday night with appropriate exercises. Some black horses suddenly turned white, roan horses were made spotted like the leopard, white horses were striped like the Zebras, and cows took on the blushing red color which diamond dye can give. Chickens changed roosting places, pigs changed sties and a large amount of advertising was done. The president, secretary and business manager of the "halloween brigade" deserve credit for the way they performed their responsible duties.

Evergreen church at Forks of Little Blaine was dedicated last Sunday by Rev. S. A. Donahoe, P. E., and Rev. Tolbert, preacher in charge. The sermon preached on the memorable occasion by Rev. Donahoe was one of the oldest ever delivered on the Blaine Circuit by anyone. His subject, "Loyalty to the church," was handled in a masterly way and delivered only as such pulp orators as Donahoe can deliver. He showed the divine institution of the church, its sacredness to the Great Jehovah; its protection to mankind, and man's indispensable duty to obey the laws of some church and live within its pales, because the church is the representative of Christ as a personal Savior to all human kind. He said "It takes oppression to show the loyalty in men and women; that when men simply moved with the crowd it was no test of their loyalty or sincerity." He further said "that God never made a law which could be dupliated by nature," and backed up this statement with the laws of growth, gravitation, the change of seasons, movements of the planets in the empty space, of twinkling stars, of the beautiful moon, of whirling worlds and burning suns. About five hundred people were present and enjoyed immensely the sermon, after which a collection was taken amounting to \$50. This came the solemn rights of dedication according to Methodist discipline. The structure was then turned over to the trustees. All being present they acknowledged the receipt of the church with bowed heads. It is a new country church, nicely seated with three pulp chairs and a splendid organ. It is also covered with insurance. Thus they enter upon a new era.

The matrimonial silence was broken last Saturday evening by Mr. James Fletcher, of Marys Chapel. He took as a welcome bride Miss Mary Pool, at the home of John B. Thompson, Rev. A. J. The American Girl.

WHAT MAKES HER POPULAR.

The American girl is admired and liked at home and abroad because she is the happiest, usually the healthiest and friendliest of girls. She is fond of life and is alive to everything beautiful and good in existence. Mrs. Langtry has said that the American woman has little to learn from her English sisters.

Dr. Pierce, the specialist in women's diseases of Buffalo, N. Y., advises simple exercises for women, preferably in the outdoor air. But many women are confined to the house and their household duties or their business confines them to poorly ventilated rooms.

If a woman suffers from a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, she naturally says, but all the time the real trouble very often centers in the womanly organs. In 98 per cent. of cases the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate sexual organs of the sex should be treated steadily and systematically.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$50 for any case of Leucorrhea, Female Weakness, Hoarseness, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

EX-GOV. NASH IS DEAD.

He Expired Suddenly in Bath Room at His Son-in-Law's Home.

Columbus, O., Oct. 29.—Ex-Gov. Geo. Killion Nash was, shortly before noon, Friday, discovered dead in his bath room. Before he started to take his bath, he did not seem to be unusually weak and there was no indication of the sudden end. As is generally known, he has several times been declared near death, but had regained strength and displayed vitality which surprised his doctors.

He was not only a powerful, but a cheerful, his heart seemed to have suddenly stopped short, painless death ensuing.

The governor was in the bath room at the residence of his son-in-law, Worthington E. Nabco. He was alone at the time and the sound of a heavy fall called several members of the household to the bath room, where he was found on the floor unconscious and to all appearances dead. His physician was sent for but life was extinct when he arrived.

The ex-governor had been in precarious health since the launching of the Ohio, having suffered from indigestion in Columbus on his return from the coast. After retiring from the executive office he resumed the practice of law, but would do little active work.

In the last four months he had been rarely at his law office. A week ago Thursday he went to the State university to attend a meeting of the board of trustees, of which he was a member. That was the last active work he did. While both the patient and his family knew that death might come at any time, there was no special reason to expect it at this time. It seemed no worse than usual during the forenoon.

EXPLOSION IN A MINE.

Between 30 and 60 Miners' Lives Were Lost in Calatrada.

Trinidad, Col., Oct. 29.—A terrible explosion occurred at Mine No. 3 of the Rocky Mountain Fuel and Iron Co. at Terolo, 40 miles due west of Trinidad, Friday afternoon and the number of dead is variously placed between 30 and 60 men. The exact number of dead may never be known, as the mine is burning and in all likelihood the bodies will be cremated.

The mine was opened only a year ago and extended 2,000 feet into the hill. The explosion is supposed to have been caused by dust. A large body has been recovered, that of T. Duran, a driver, who was just entering the tunnel when the explosion occurred. He was torn and burned almost beyond recognition. All mines within a radius of 20 miles have been shut down and the miners are on the way to assist in reaching the bodies.

As soon as it was put in place the statue was unveiled until the ceremony on November 19, when it will be unveiled by the German ambassador, the Baroness Speck Sternburg, and will be formally presented by the German ambassador. Many German societies in various parts of the country will send delegates to represent them.

ELEVATOR COLLAPSED.

Loss an Grain and the Building Estimated at \$350,000.

Huffah, N. Y., Oct. 31.—From some cause which can not be definitely explained the Ontario elevator collapsed Sunday and sank into the waters of the Evans slip. The elevator contained 370,000 bushels of barley, a large portion of which lies at the bottom of the slip. The loss on the grain and the building is estimated at \$350,000. Charles Huffah, 82 years old, the elevator superintendent, was seriously injured.

FEMALE WEAKNESS

601 E. Congress St., Portland, Maine, Oct. 17, 1901.

I consider Wine of Cardui superior to all other doctors' medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pains would shoot through my back and sides and I would have blind headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering the least. I usually did and soon became regular and without pain. Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Limbs Badly Swollen.

Dr. M. Fenner, Fredonia, N. Y.

Dear Sir—About 4 years ago I began to suffer with severe pains in my back making it impossible for me to do any work.

My limbs were swollen badly and I was troubled with a swelling of the heart muscle, coming as I suppose from kidney trouble.

I had tried several kidney remedies with little result, not satisfactory.

I asked Mr. Fenner, the druggist who handles your goods here and he recommended your Kidney and Backache Cure saying he had sold it for several years very successfully.

I took 4 bottles and the swelling has all gone from my limbs and my heart trouble completely cured.

I have recommended this remedy to a large number of my acquaintances, with the same result.

I will gladly answer any letter from any one.
